

Brighton & Hove Fencing Club

Beginners Course

The course will cover the basics of everything you need to know to get fencing.

You'll learn key safety points, a variety of offensive and defensive blade work actions, and the footwork to put it all together. You'll also end up with some tactical planning, and an understanding of how to gain feedback to steer fights in your favour. The structure will be group lessons with multiple opportunities for sparring throughout the course.

All equipment will be provided for the duration of the course. Please ensure you are wearing appropriate 'sporty' footwear (ideally court shoes, but outdoor trainers with a low heel are usually suitable), that your legs are fully covered with no forward-facing pockets (tracksuit bottoms/ leggings are ideal), and that you bring a water bottle.

Location: Brighton & Aldridge Community Academy (BACA) Sports Hall at the back of the site.
